

Safe Germicidal White Perforated Sheet Plastic Chicken Net Food Grade

Our Product Introduction

for more products please visit us on wire-metalmesh.com

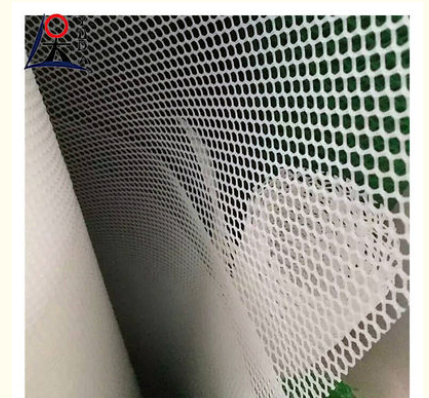

Basic Information

- Place of Origin: CHINA
- Brand Name: YUDA
- Model Number: Plastic flat net
- Minimum Order Quantity: 100 Square Meter
- Price: US \$0.6 - 2.8/ Square Meter
- Packaging Details: Customized according to buyer's requirements
- Delivery Time: 3-10 day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 200000 Square Meters/ day

Product Specification

- Product Name: Plastic Net
- Keys Words: White Perforated Plastic Sheet
- Color: Black, White, Green, Orange, Red Or Customized
- Material: HDPE
- Hole Shape: Diamon, Square, Hexagonal Etc.
- Size: Customized Size
- Thickness: 0.8MM - 8MM Or Custom
- Occasion: Camping, Party
- Highlight: **White plastic chicken net,
Perforated plastic chicken net,
Food Grade plastic chicken net**

Product Description

Food grade safe germicidal white perforated plastic sheet Chicken Net

Product Description

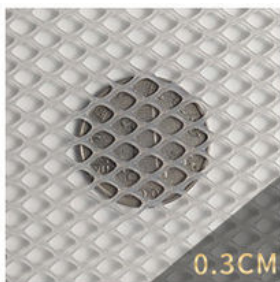

A Plastic flat net, also known as a plastic flat mesh or a plastic flat mesh, is a mesh product made of plastic. It is usually made of plastic materials such as high-density polyethylene (HDPE) or polypropylene (PP) and has a flat mesh structure.

Specifications			
Opening(cm)	Plate thickness (mm)	Roll diameter(cm)	Weight per roll(kg)
3	1	20	30
4	1	20	30
6	1	20	30
0.8	1	35	40
1	1.2	30	35
1.5	2	30	40
3	2.5	45	50
2	1.5	50	55
3	3	50	25
2	4.5	50	85

High quality raw materials , Adopt new materials,low carbon technology , durable.

Uniform Mesh Thick & Strong

Diamond design for easy cutting and easy card positioning.

Mainly used in oil, chemical industry, aquatic breed, back cushion of car, shermans mattress, air conditioner mesh, and road bed mesh, etc.

Plastic flat mesh usually has the following characteristics and uses:

Flat mesh structure: The plastic flat mesh consists of a flat, grid-like structure with square or rectangular mesh.

Light and durable: plastic flat mesh is relatively light, while having good corrosion resistance and durability.

Ventilation and light transmission: The mesh structure allows air and light to pass through freely, suitable for ventilation and shading applications.

Separation and screening: Plastic flat mesh can be used to separate and screen granular material, such as particle screening and particle grading.

Packaging and protection: can be used to package and protect fruits, vegetables and other items to prevent damage and maintain ventilation.

Plastic flat mesh is widely used in agriculture, horticulture, construction, packaging and industry. For example, in the field of agriculture, it can be used for fruit and vegetable packaging, greenhouse shading, fruit tree support and fixation. In the construction and industrial fields, it can be used to screen particles, as a tuyere cover, protective guardrail and so on. In addition, plastic flat nets can also be used for home decoration, pet

cages, lawn maintenance and other aspects.

In short, plastic flat mesh is a multi-functional plastic mesh product, with lightweight, durable, breathable and transparent characteristics, widely used in various fields.
