

Metal Wire Loop Tie Wire Galvanized Double Loop Wire Ties Bar Wire Ties

Our Product Introduction

for more products please visit us on wire-metalmesh.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: ANPINGYUDA
- Model Number: loop tie wire
- Minimum Order Quantity: 5-10rolls
- Price: reconsideration
- Packaging Details: Customized according to customer requirements
- Delivery Time: 3-10days
- Payment Terms: T/T
- Supply Ability: 5000 rolls /day

Product Specification

- Product Name: Loop Tie Wire
- Key Words: Galvanized Loop Tie Wire
- Material: Low Carbon Steel
- Color: Silver
- Size: Custom-made
- Usege: Packaging And Bundling
- Highlight: **Galvanized Loop Tie Wire,
Metal Double Loop Wire Ties,
Galvanized Double Loop Wire Ties**

Product Description

Metal Wire Loop Tie Wire Galvanized Double Loop Wire Ties Bar Wire Ties

Loop tie wire product information

It is a metal wire, usually made of galvanized or stainless steel or pvc coated. It is characterized by bending metal wires into loops to facilitate binding or securing objects in construction, horticulture and other applications.

Loop tie wire theory

Loop Tie Wire principle is very simple, it by bending metal wire into a loop, to achieve the binding or fixing of the object.

Loop tie wire operational approach

The procedure for using circular bundling cables is usually as follows:

- 1.Preparation: Select the appropriate length and diameter of the loop binding cable to ensure that it can meet the required binding or fixing requirements.
- 2.Bend into a loop: Bend a piece of loop binding wire into a desired loop, usually a large ring or elliptical ring. The size and shape of the ring can be adjusted as needed.
- 3.Strapping or securing: Loop one end of the loop binding wire around the object that needs to be strapped or secured, and then pass the other end through the loop to form a loop. Then, tighten the loop binding wire so that it holds the object tightly.
- 4.Fixed loop binding wire: To ensure the strength of the loop binding wire, specific tools (such as lashing pliers) can be used to hold the ends of the loop binding wire in place or twist them together.

FAQ

Q: Are you a manufacturer?

A: Yes , we are a manufacturer, We have own factory, which is located in HEBEI,CHINA.

Q:Can we visit your factory ?

A:Warmly welcome once we have your schedule we will pick you up .

Q: Do you have quality control?

A: Yes, we have gained BV, SGS authentication.

Q: Can you arrange the shipment?

A: Sure, we have permanent freight forwarder who can gain the best price from most ship company and offer professional service.

Q: How long is your delivery time?

A: Generally it is 7-14 days if the goods are in stock. or it is 25-45 days if the goods are not in stock, it is according to quantity.

Q:How can we get the offer?

A:Please offer the specification of the product,such as material,size,shape,etc.So wecan give the best offer.
