

U Tie Wire Galvanized Binding Wire 1.5mm Diameter U Type Wire

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: YUDA
- Model Number: U tie wire
- Minimum Order Quantity: 2 Ton
- Price: US \$700.00 - 910.00/ Ton
- Packaging Details: Customized according to buyer's requirements
- Delivery Time: 3-10 day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Ton/ day

Product Specification

- Product Name: U Tie Wire
- Key Words: Galvanized U Tie Wire
- Size Range: BWG 8-BWG 28
- Hot-dip Zinc Coat: 30-280g/
- Electro Zinc Coat: 10-25g/
- Tensile Strength: 350-550N/m
- Highlight: **1.5mm U Tie Wire,
1.5mm galvanized binding wire,
U Type galvanized binding wire**

Product Description

U Tie Wire Galvanized Binding Wire 1.5mm Diameter U Type Wire

U type iron wire and cutting wire are mostly used as binding wire in construction.

U type iron wire is made from electro galvanized iron wire or hot-dip galvanized or black iron wire,PVC coated iron wire.

Galvanized U tie wire is best building materials, mainly used for construction, binding wire, handicrafts, weaving nets, highway fence, communications equipment, medical equipment and brushes, cables, filters, product packaging,etc.

U tie wire product information

Multi-purpose: U-type bundling cable can be used for a variety of lashing and securing tasks. Whether in the fields of building construction, decoration, industrial equipment maintenance or agricultural plant support, U-shaped strapping wire is a practical and versatile tool.

U tie wire advantage

1.Fast and convenient: U-shaped strapping wire is uniquely designed to fix objects quickly and easily. The lashing operation can be done quickly by threading the thread through the object and forming a U shape, and then crossing or twisting the ends.

2.Strength and stability: Because U-type bundling wire is made of high quality steel wire or iron wire, it has good strength and stability. Once bundling is complete, the U-shaped bundling cable can firmly fix the object and is not easy to loose.

U tie wire application

Building and Construction: U-shaped bundling wire is commonly used in the building and construction industry. They can be used to tie and secure building materials such as rebar, wood and pipes. During concrete placement, U-shaped bundling wires can be used to secure and connect scaffolding and formwork.

|------------------|--|
| Product Name | Scaffolding Packing Galvanized Tie Wire Cuttings U Type Binding Wire |
| Material | Electro galvanized,hot dipped galvanized,black annealed,PVC coated |
| Wire diameter | 0.7mm-1.2mm |
| Length | 25cm-55cm |
| Zinc Coating | 30-70g |
| Tensile Strength | 350-550N/mm2 |
| MOQ | 1 ton |
| Delivery | 20 days after received the deposit |
| Usage | Mainly used in construction as binding wire or wire ties,weaving of wire mesh. |

FAQ

Q: Are you a manufacturer?

A: Yes , we are a manufacturer, We have own factory, which is located in HEBEI,CHINA.

Q:Can we visit your factory ?

A:Warmly welcome once we have your schedule we will pick you up .

Q: Do you have quality control?

A: Yes, we have gained BV, SGS authentication.

Q: Can you arrange the shipment?

A: Sure, we have permanent freight forwarder who can gain the best price from most ship company and offer professional service.

Q: How long is your delivery time?

A: Generally it is 7-14 days if the goods are in stock. or it is 25-45 days if the goods are not in stock, it is according to quantity.

Q:How can we get the offer?

A:Please offer the specification of the product,such as material,size,shape,etc.So wecan give the best offer.
