- Length: 1/2"-6" Or Customized
- Packaging: Bags
- Highlight: ground nails galvanized, u shaped ground nails , galvanized brad nails

## Product Description

### Galvanized Sod Staple For Garden Steel U Shaped Ground Nails

#### U type nails product description

Lawn nail is a high quality fixing nail designed for fixing lawns, mulch and floor cloths. They have the following characteristics and advantages:  
High-strength materials: Lawn nails are made of high-strength materials to ensure their durability. This allows them to provide a reliable holding force in different types of soil and ground conditions.

Length and diameter options: Lawn nails are available in a variety of length and diameter options to accommodate different thicknesses and densities of lawn, mulch or floor coverings. This allows them to meet a variety of fixed needs and ensures that the fixed effect is stable and stable

#### U type nails operational approach

Nail installation: Align the tip of the lawn nail with the marked location and drive the nail into the ground by hand or with an auxiliary tool such as a hammer or nail gun. Apply the appropriate pressure to ensure that the nail can penetrate the material and secure itself firmly to the ground.
