- Key Words: Ground Nails Type Of Soil
- Surface Treatment: Galvanized
- Usage: Building Construction
- Material: Low Carbon Steel
- Sample: Free Sample
- Highlight: **galvanized artificial grass nails, galvanized ground nails, soil ground nails**

Product Description

Galvanized Artificial Grass Nails Ground Nails Type Of Soil

lawn nails manufacturing technique

Lawn nails usually require surface treatment to increase their corrosion resistance. Common surface treatment methods include galvanizing, hot-dip galvanizing, aluminizing or coating anti-corrosion coating. These treatments can provide additional protection so that lawn nails can withstand wet environments and corrosion factors.
