

## 20 X 20 Brass Wire Mesh Fine Metal Brass / Copper Wire Mesh Screen

### Our Product Introduction

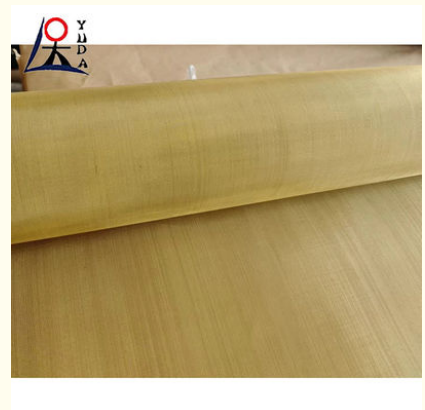

#### Basic Information

- Place of Origin: CHINA
- Brand Name: YUDA
- Model Number: Brass / copper wire mesh
- Minimum Order Quantity: 100 Square Meter
- Price: US \$3.80 - 4.50/ Square Meter
- Packaging Details: Customized according to buyer's requirements
- Delivery Time: 3-10 day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 200000 Square Meter/ day

#### Product Specification

- Product Name: Copper Wire Mesh Screen
- Key Words: 20 X 20 Wire Mesh
- Material: Copper Wire, Brass Wire, phosphor Bronze Wire
- Hole Shape: Square Hole
- Mesh Count: 1-200mesh
- Wire Diameter: 0.05mm-2.03mm
- Weave Type: Plain Woven Weave
- Application: Shielding
- Highlight: 20 x 20 brass wire mesh ,  
Copper 20 x 20 wire mesh ,  
20 x 20 Copper Wire Mesh Screen

## Product Description

### 20 X 20 Brass Wire Mesh Fine Metal Brass / Copper Wire Mesh Screen

**Good corrosion resistance:** The brass mesh is made of an alloy of copper and zinc, which has good corrosion resistance and can effectively resist the erosion of various chemicals. Therefore, brass mesh can maintain a good condition for a long time in harsh environments such as humidity, acid and alkali, and has high durability.

**Excellent conductivity and thermal conductivity:** Brass, as an alloy material, has good conductivity and thermal conductivity. This makes brass mesh have a wide range of application prospects in electrical, electronic and other fields, such as for making electrical contacts, heat sinks, etc.

**Conductivity and thermal conductivity:** As an alloy material, brass has good conductivity and thermal conductivity, which makes brass mesh widely used in electrical, electronic and other fields.

#### Copper wire mesh specifications

#### Copper wire mesh advantage

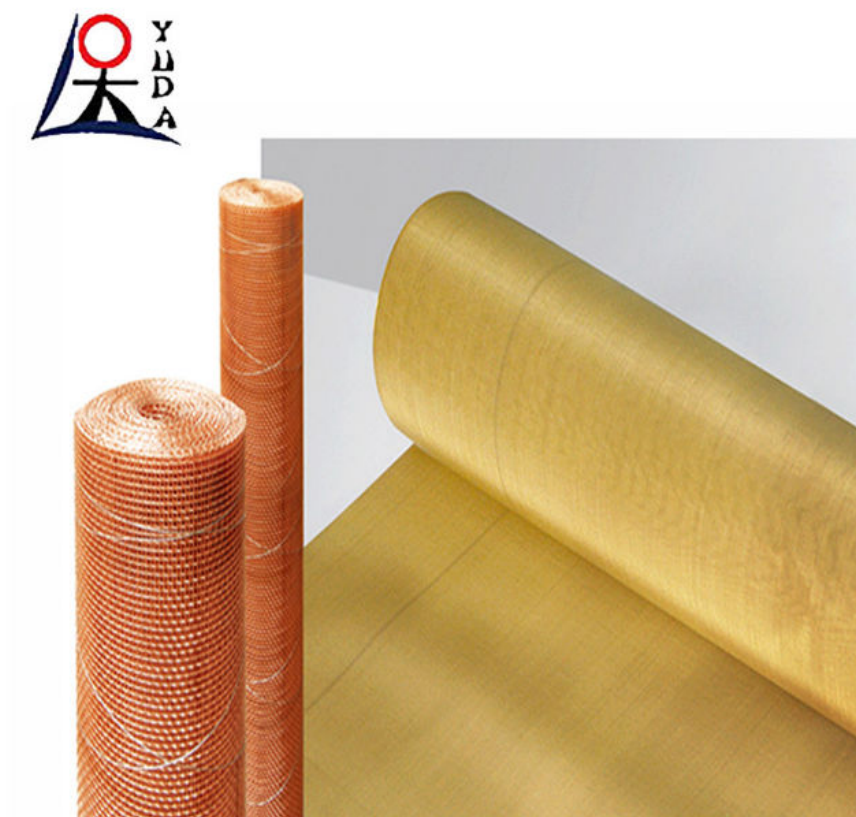

Copper mesh has excellent electrical conductivity, heat conductivity, strength and durability, corrosion resistance, processing performance and visible light transmittance, making it one of the ideal materials widely used in the fields of electronics, electricity, heat dissipation, filtration and optics.

#### Our service

We provide customized service, warranty service, with strictly quality control, perfect quantity and very competitive price.

Brass mesh has advantages such as good corrosion resistance, wear resistance, appropriate tensile and elongation resistance, excellent conductivity and thermal conductivity, and beautiful appearance. These advantages have made brass mesh widely used in multiple fields.

**Beautiful appearance:** The color of the brass mesh appears golden or yellow, giving it a beautiful appearance. This makes brass mesh widely used in decoration, handicrafts, furniture accessories and other fields, such as for making screens, partitions, decorative paintings, etc.
