

## Galvanized / PVC Coated / Stainless Steel Welded Wire Mesh Fence

### Our Product Introduction

for more products please visit us on [wire-metalmesh.com](http://wire-metalmesh.com)

#### Basic Information

- Place of Origin: CHINA HEBEI
- Brand Name: YUDA
- Model Number: Welded wire mesh
- Minimum Order Quantity: 10 roll
- Price: Determined by size and quantity
- Packaging Details: Customized according to buyer's requirements
- Delivery Time: 3-10 day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 roll/ day

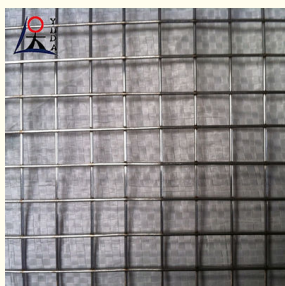

#### Product Specification

- Product Name: Welded Wire Mesh
- Key Words: Galvanized / PVC Coated / Stainless Steel
- Hole Shape: Square, Rectangle
- Wire Diameter: 2.0-4.0mm Or Custom
- Hole Size: Customer Request
- Surface Treatment: Galvanized/pvc Coated
- Characteristics: Corrosion-resisting And Oxidation-resisting.
- Welding Type: Galvanized Before Welding, Galvanized After Welding
- Highlight: **galvanized Welded Wire Mesh, galvanized steel welded wire mesh, galvanized stainless steel welded wire mesh**

## Product Description

### Galvanized / PVC Coated / Stainless Steel Welded Wire Mesh Fence

**Galvanised:** Galvanising is the anti-corrosion treatment of steel by covering it with a layer of zinc. Galvanising effectively prevents steel from coming into contact with external oxygen, water and other corrosive substances, extending the life of the fence. Galvanised fences are corrosion and weather resistant and are suitable for outdoor environments.

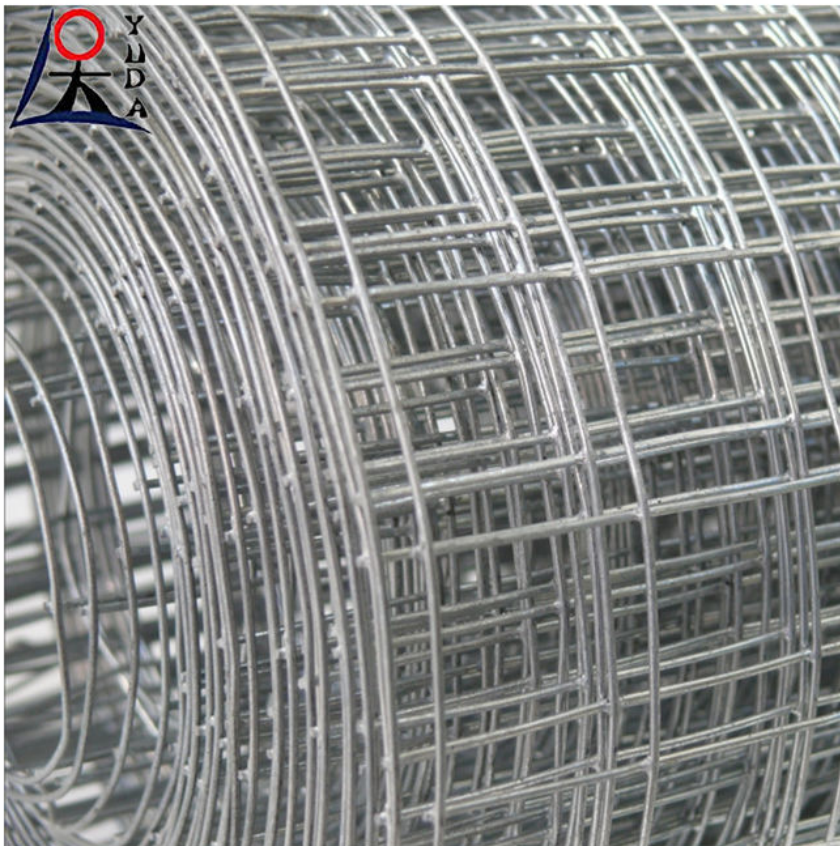

**PVC Coating (Polyvinyl Chloride Coating):** PVC Coating is an anti-corrosion treatment that coats steel with a layer of polyvinyl chloride plastic. PVC Coating provides the fence with strong weathering and corrosion resistance, and also adds to the aesthetics of the fence. PVC Coated fences are usually available in a wide range of colours, and can be customised according to personal preference.

**Stainless Steel Welded Wire Mesh:** Stainless Steel Welded Wire Mesh is a mesh structure made of welded stainless steel wire. Stainless steel has excellent corrosion resistance and can be used in harsh environments for long periods of time without rusting. Stainless Steel Welded Wire Mesh Fence has high strength and durability, and is suitable for places that require higher security and protection.

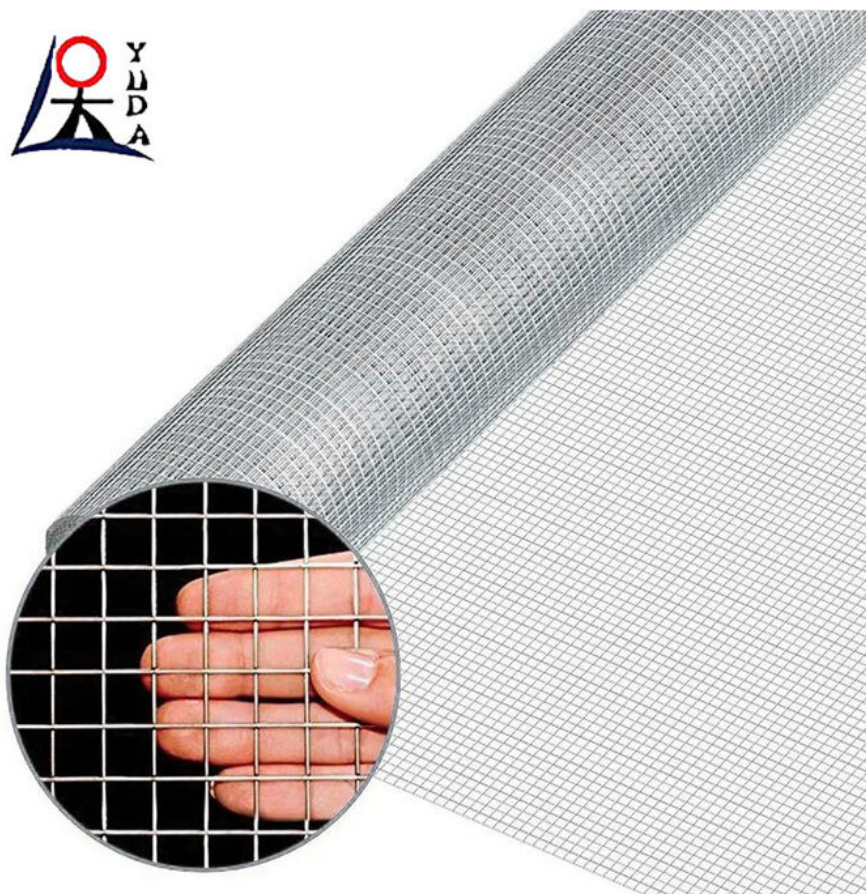

#### Welded Wire Mesh Applications and usage:

1. Fences and gates
2. Architectural uses
3. Architectural Wire Mesh for Green Building Design
4. Infill panels for railings and divider walls
5. Animal control cages
6. Screens for doors and windows
7. Machine guards
8. Shelving and partitions
9. Behind-the-scenes use in plumbing, walls and ceilings
10. Gardens to keep bugs away from their plants and vegetables

Specificat List Of Welded Wire Mesh		
Opening		Wire Diameter (BWG)
In inch	In metric unit(mm)	
1/4x1/4	6.4mmx6.4mm	22,23,24
3/8x3/8	10.6mmx10.6mm	19,20,21,22
1/2x1/2	12.7mmx12.7mm	16,17,18,19,20,21,22,23
5/8x5/8	16mmx16mm	18,19,20,21
3/4x3/4	19.1mmx19.1mm	16,17,18,19,20,21
1x1/2	25.4mmx12.7mm	16,17,18,19,20,21
1-1/2x1-1/2	38mmx38mm	14,15,16,17,18,19
1x2	25.4mmx50.8mm	14,15,16
2x2	50.8mmx50.8mm	12,13,14,15,16
