

Acoustic Noise Fence Barrier Noise Protection Wall Road Sound Barrier

Our Product Introduction

for more products please visit us on wire-metalmesh.com

Basic Information

- Place of Origin: CHINA
- Brand Name: YUDA
- Model Number: Sound barrier
- Minimum Order Quantity: 50 Piece
- Price: Determined by size and quantity
- Packaging Details: Customized according to buyer's requirements
- Delivery Time: 3-10 day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 200000 Meters/ day

Product Specification

- Product Name: Sound Barrier
- Key Words: Outdoor Sound Barrier
- Panel Style: Steel Panel, PC Board
- Application: Highway, Railway, Noise Barrier, etc
- Panel Thickness: At Your Request
- Panel Length: 2m~4m Can Custom
- Feature: High Stability, Eco-friendly, Effective Railway Noise Barrier
- Sheets Thickness: 0.8-1mm, Can Be Customized
- Highlight: **Acoustic road sound barrier, Protection Wall Road Sound Barrier, fencing to reduce road noise**

Product Description

Acoustic Noise Fence Barrier Noise Protection Wall Road Sound Barrier

Sound Barrier Fence is mainly used in the construction site, help to prevent noise propagation to the neighborhood and reduce the work area noise.

Based on strict acoustic principle, noise barrier is of high quality and stability and the performance will not degrade because of the changes in the rain or the sun.
It's perfect for your construction site noise control.

Standard height: 2,000mm, 2,500mm, 3,000mm and space between poles 1,000mm, 2,000mm and 2,500mm. It is available upon customer request. Steel structure and sound insulation screen consist of the sound barrier. The design already takes fully consideration of express way and subway's wind load, transportation traffic's striking security and all days' chemical proof in the open air

Sound barriers can significantly reduce noise through the scientific combination of sound absorption and insulation materials, as well as reasonable height settings. When sound waves propagate to the sound barrier, they are absorbed and blocked, greatly reducing the impact of noise on the receiving area.

Reducing noise pollution, with good noise reduction effect, suitable for a wide range of scenarios, strong wind resistance, good fire and flame retardant performance, improving the quality of life of residents, beautifying urban landscapes, good environmental performance, and improving road driving safety,

METAL SHEET				
PANEL HEIGHT	PANEL LEHGTH	SHEET THICKNESS	SHEET THICKNESS	PANEL TYPE
0.5m 1.0m	2.0m 2.5m 3.0m 4.0m	80mm 100mm 120mm	1.0-1.5mm	shutter or perforated
PC/PMMA SHEET				
PANEL HEIGHT	HEIGHT	SHEET THINCKNESS	LIGHT TRANSMITTANCE	
0.5m 1.0m 1.5m	2.0m 2.5m 3.0m 4.0m	8mm 10mm 12mm 15mm	≥80%	
NOISE BARRIER				
TOTAL HEIGHT	LENGTH	RW	NRC	
3.0m as standard	2.0m 2.5m 3.0m 4.0m	≥35dB	≥0.84	

Advantages Sound Noise Barrier System:

- Highly absorptive noise barrier system
- Easy installation or maintenance replacement
- Can be incorporated with other materials
- Can be easily relocated
- Minimum repair required only damaged panels to be replaced
- Fits standard support post systems
- Standard/custom modular sizes
- Manufacturing is consistent
- Custom panel sizes and shapes
- Choice of colours
- Framed clear or coloured acrylic
- Pre-printed graphics
- Using security cables on bridges and slopes are at lower risk
- Fire resistant
- Maintenance free
- Low life cycle costs
- Factory applied Anti-graffiti coating

FAQ

Q: Are you a factory or trading company?

A: We are a factory.

Q: What certificate do you have?

A: We have ISO and CE certificate.

Q: How does your factory do regarding quality control?

A: We have a special QC department in charge of products' quality.

Q: How long is the warranty period?

A: All of our products have one year warranty.

Q: What's the main market of your company?

A: We have customers all over the world.
