

## Rust Proof Welded Gabion Box Wire Mesh Gabions Retaining Wall

Our Product Introduction

for more products please visit us on [wire-metalmesh.com](http://wire-metalmesh.com)

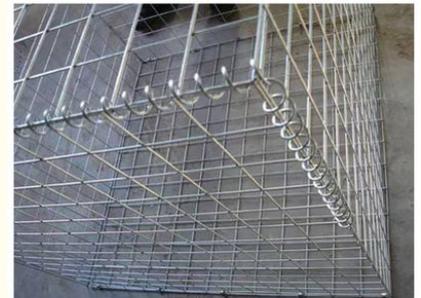

### Basic Information

- Place of Origin: CHINA
- Brand Name: YUDA
- Model Number: Gabion mesh
- Minimum Order Quantity: 100 Square Meter
- Price: US \$1.50 - 3.50/ Square Meter
- Packaging Details: Customized according to buyer's requirements
- Delivery Time: 3-10 day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 200000 Square Meter/ day

### Product Specification

- Product Name: Rust Proof Galfan Coated Welded Gabion Box
- Key Words: Wire Mesh Gabions
- Application: Gabions, Cages, slope Protection, Fence Mesh, Construction Wire Mesh
- Surface Treatment: PVC Coated/galvanized
- Wire Gauge: 2.0mm-4.0mm
- Usage: Flood Control Retaining Wall
- Highlight: **2.0mm gabion mesh, 4.0mm gabion mesh, 2.0mm stainless steel mesh screen**

## Product Description

### Rust Proof Welded Gabion Box Wire Mesh Gabions Retaining Wall

#### Gabion box product characteristics

- 1.The structure is stable: the stone cage basket is braided by steel wire to form a hexagonal grid structure. The steel wire is welded or crimped together to form a strong basket structure. This kind of structure can provide stable support and compressive ability, which is suitable for various earthwork reinforcement and slope protection projects.
- 2.Material durability: gabion nets are generally made of galvanized steel wire, and galvanized treatment can provide excellent corrosion resistance and oxidation resistance. This makes the stone cage net can be used for a long time in a variety of harsh environmental conditions, not easily affected by natural factors and damage

#### Gabion box application

- 1.River and coastal protection: stone cage nets can be used for river and coastline protection projects. They can be placed on riverbanks or seawalls to resist current shocks and wave erosion, protecting the stability of land and infrastructure.
- 2.Earthwork support and slope protection: stone cage nets can be used in earthwork support and slope protection. They can be used to support soil slopes, prevent soil erosion and landslides, and provide structural stability. In addition, stone cage nets can also be used in combination with vegetation to form an ecological slope protection system.
- 3.Mountain protection: In mountain engineering, stone cage nets can be used to prevent natural disasters such as landslides, rock falls and earth and rock flows. They can be placed in potential landslide areas to form a structurally stable protection system to protect surrounding people and property.
- 4.Water conservancy projects: stone cage nets are widely used in various scenarios in water conservancy projects, such as river bed repair, dam repair, reservoir revetments, etc. They can prevent water erosion, stabilize river beds and shoreline, and protect the safe operation of water conservancy facilities.
- 5.Environmental landscape design: Because of the natural and rustic appearance of stone cage nets, as well as the characteristics of allowing plants to grow, they are widely used in environmental landscape design. It can be used in landscape shaping, landscaping, waterscape design, etc., to create beautiful and eco-friendly environmental effects.
- 6.Other applications: In addition to the above main uses, stone cage nets can also be applied to road engineering, railway engineering, geological engineering and other fields, for slope reinforcement, retaining wall construction, isolation grid Settings.

#### Gabion box product specifications

Box size(mm)	Mesh size(mm)	Capacity/box(m <sup>3</sup> )
1.0*1.0*0.5		0.5
1.0*1.0*1.0		1.0
1.5*1.0*0.5		0.75
1.5*1.0*1.0	50*50	1.5
2.0*1.0*0.5	75*75	1.0
2.0*1.0*1.0	50*100	2.0
3.0*1.0*0.5	100*100	1.5
3.0*1.0*1.0		3.0
4.0*1.0*0.5		2.0
4.0*1.0*1.0		4.0

**Corrosion Protection**

Good air permeability  
Conducive to the stability of  
hillsides and dams.

**High Strength**

Can withstand various deforma-  
tions  
Still not falling.

**Large inventory**

Foldable transport  
Save on transportation costs.

**Our service**

- 1> 24 hours online service.
- 2> Best pre-sale and after-sale service.
- 3> We will choose the shipping company with good service and low price for you.
- 4> Loading the goods: We will track all the way, to ensure product safety, quick to arrive at the designated port.
- 5> Arrival of the goods: We will provide installation instructions and subsequent technical guidance.
- 6> Company for products and accessories, for a long time to be able to provide various products accessories at cost to the customer at any time.
