## Product Description

### Metal Galvanized Deer Field Fence High Tensile Woven Wire Fixed Farm Cattle Fence

Field fence made of high quality carbon steel, is also called cattle fence or grassland fence. Field fences can be divided into fixed knot field fence and hinge joint fencing. With galvanized surface, they have good anti-corrosion effect. They are featured by the high strength, easy installation and long service life and widely used for fencing of various animals such as cattle, horse, sheep and deer. Besides, they also can be used with barbed wire or chicken wire for farm fencing, garden fencing, road fencing, forest fencing and so on.

Field fence also known as agricultural fence or farm fence, cattle fence, is a type of fencing designed to enclose and protect agricultural fields, pastures, or livestock. It is commonly used in rural areas to establish boundaries, prevent animals from escaping, and keep out unwanted wildlife.
