

Square Decorative Stone Crusher Vibrating Crimped Screen Mesh

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: YUDA
- Model Number: crimped wire mesh
- Minimum Order Quantity: 100 Square Meter
- Price: Determine based on size and quantity
- Packaging Details: Customized according to buyer's requirements
- Delivery Time: 3-10 day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 200000 Square Meter/ day

Product Specification

- Product Name: Crimped Wire Mesh
- Key Words: Crimped Mesh
- Technique: Woven
- Wire Diameter: Requirement
- Hole Shape: Square Hole, as Per Requirement
- Width: Customized
- Surface: Galvanised / Stainless Steel / PVC
- Application: Mining, coal Factory, rail Road, farm, BBQ
- Highlight: **Vibrating Crimped Wire Mesh,
Square Decorative Crimped Wire Mesh,
Stone Crusher Crimped Wire Mesh**

Product Description

Square Decorative Crimped Wire Mesh Stone Crusher Vibrating Crimped Screen Mesh

Manganese Steel Ore Screen is a screen product made by weaving manganese steel wire with a diameter of 1.6mm-12mm. It adopts the embedded (Mn65-Q) weaving method, with no prominent overlapping points of longitude and latitude, a flat surface, and uniform force distribution.

The Hardness is HB180-230, with good plasticity and toughness. When subjected to strong impact and friction, the surface undergoes strong work hardening due to plastic deformation, and the surface hardness value can be increased to HRC60 or above, thereby achieving high wear resistance, while maintaining high plasticity and toughness internally.

When the old surface wears down, a wear-resistant layer will form on the new surface, and its lifespan can reach 4-8 times that of a regular sieve. Therefore, it is mostly used in the large-scale coal mining industry and can also be used as a protective net for professional mechanical vibrating screening machines, drum screening machines, electromagnetic high-frequency screening machines, and asphalt mixers.

Material:

- 1) Stainless steel wire(201,202,302,304,304L,310,316,316L)
- 2) High carbon steel wire,low carbon steel,medium carbon steel,Mn steel wire.
- 3) Galvanized iron wire,galvanized steel wire,non-ferrous metal wire. Other materials are available on request.

Application:

Crimped wire mesh is used as fence or filters in a lot of industries;Heavy Duty Crimped wire mesh are also named Quarry Mesh,it is mostly used as screen in mining,coal factory,construction and other industries.

FAQ

Q: Are you manufacturer?

A: Yes, we are manufacturer for woven wire mesh. It is mainly used for architectural mesh and decorative mesh.

Q: Can you offer a sample?

A: Yes, we can offer a free sample 10x10cm if have stock. For some customized sample, it need to charge based on the size and quantity.

Q: How to ensure the quality?

A: We will check the quality and take photos when produce and before sending out goods. If need, we can also offer test report.

Q: The mesh size can be customized?

A: Yes, the mesh size can be offered as your requirement. Then you can use it directly and no need to cut again.

CHEMICAL COMPOSITION

Material	C≤	Mn≤	Si≤	S≤	P≤	Cr≤	Ni	Mo	N
S31803(SAF2205)	0.03	2	1	0.02	0.03	21.0/23.0	4.50/6.50	2.50/3.50	0.08/0.20
