

## Square Hole Crimped Sieving Wire Galvanized Net Mining Vibrating Screen Mesh

### Our Product Introduction

for more products please visit us on [wire-metalmesh.com](http://wire-metalmesh.com)

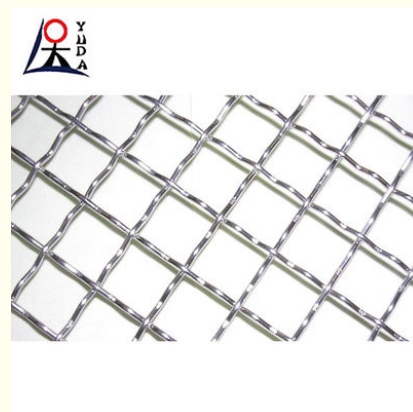

#### Basic Information

- Place of Origin: CHINA
- Brand Name: YUDA
- Model Number: crimped wire mesh
- Minimum Order Quantity: 100 Square Meter
- Price: Determine based on size and quantity
- Packaging Details: Customized according to buyer's requirements
- Delivery Time: 3-10 day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 200000 Square Meter/ day

#### Product Specification

- Product Name: Crimped Wire Mesh
- Key Words: Crimped Mesh
- Technique: Woven
- Wire Diameter: Requirement
- Hole Shape: Square Hole, as Per Requirement
- Width: Customized
- Surface: Galvanised / Stainless Steel / PVC
- Application: Mining, coal Factory, rail Road, farm, BBQ
- Highlight: **Galvanized Net Crimped Sieving Wire, Square Hole Crimped Sieving Wire, Mining Vibrating Screen Mesh**

## Product Description

### Square Hole Crimped Sieving Wire Galvanized Net Mining Vibrating Screen Mesh

Crimped wire mesh is made of carbon iron wires, stainless steel wires and weave in many types. Crimped wire mesh can be used for mining, construction, decoration.

Materials: Carbon iron, Galvanized steel, Stainless steel, Copper

Weaving methods: Double crimped, Single intermediate crimped, Double intermediate crimped and Lock crimped.

Wire diameter: 0.5mm- 8.0mm

Meshes: 2-30 meshes

Width: Standard less than 2000mm

Length: Coil or customized.

Application: Used as quarry screen, in mining, chemical, petroleum, coal factory, construction and other industries, infill panel, filter element, grill, etc.

The mesh refers to the number of openings per inch. The mesh is counted by starting from the centre of one wire and counting the number of openings to a point one inch away.

Square iron wire mesh is made of selected low carbon iron wire with precision construction, uniform mesh, fine rust resistance and durable service.

Is used in the food industry to make the net basket for food, the net plate for drying food, etc., and it is used in the chemical industry to screen and filter under acid and alkali environmental conditions. Acid washing net for electroplating industry, mud net for petroleum industry, decoration for building, oil and water separator for automobile industry, etc.

Crimped Wire Mesh can be also known as the iron crimped mesh, stainless steel crimped mesh, black iron crimped mesh according to different materials.

Crimped Wire Mesh is made in a variety of materials through crimping mesh machine, a kind of universal wire products with square or rectangular openings. Crimped Wire Mesh Material: Iron wire, black wire, stainless steel wire, copper wire and other non-ferrous metal.

Weaving: Pre-crimping before Weaving. In two-way separated wave bending, locked bending, flat-topped curved, two-way bending, one-way separated wave bending.

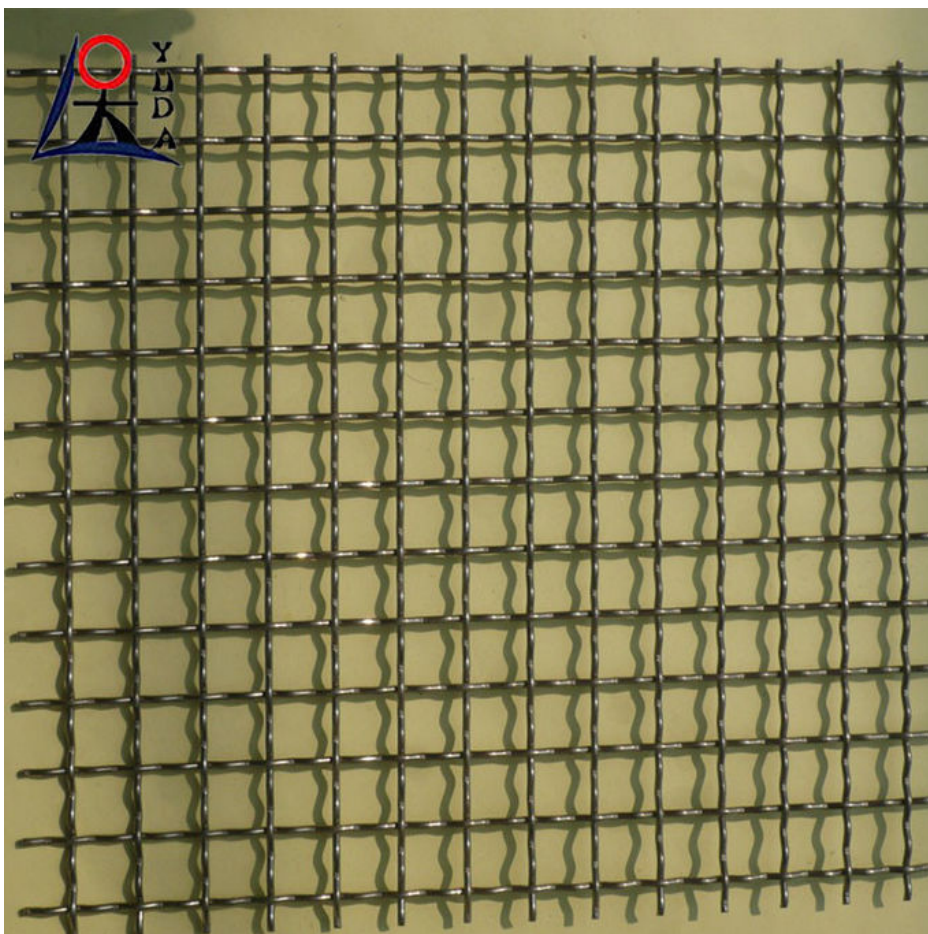

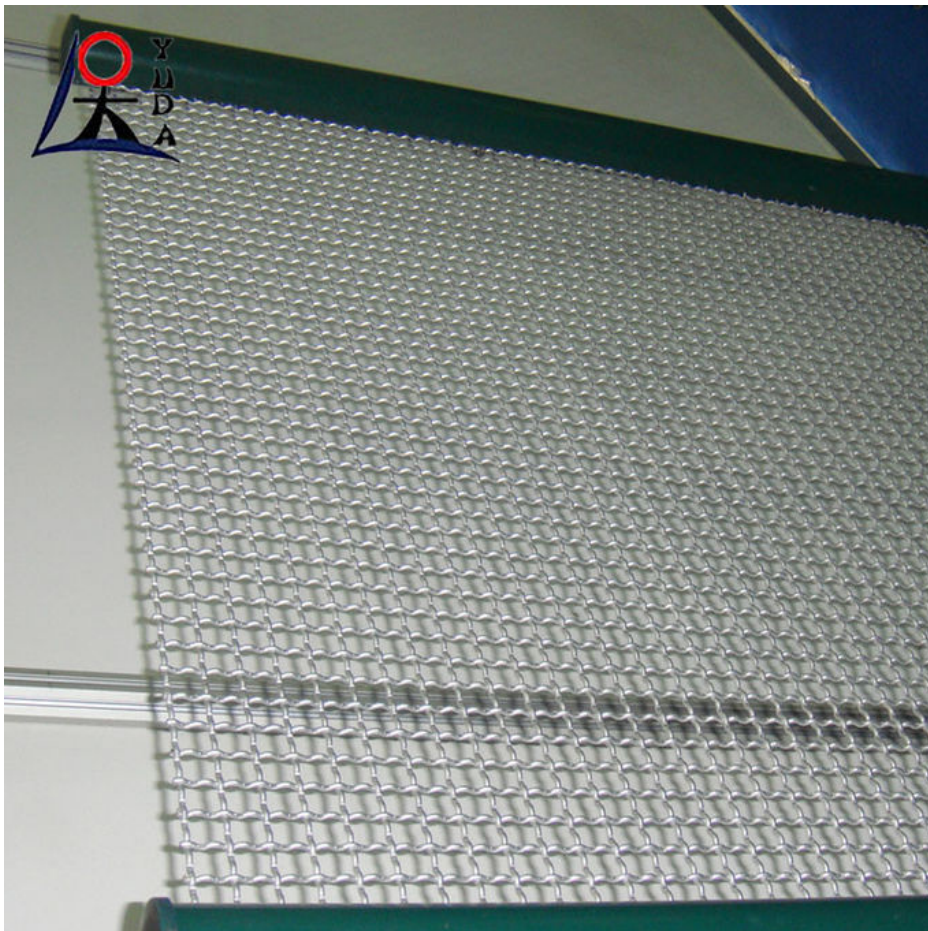

Features: Structure firm and durable. Uses: Used for mining, coal plants, construction, petrochemical industry, construction machinery, etc.

#### CHEMICAL COMPOSITION

Material	C≤	Mn≤	Si≤	S≤	P≤	Cr≤	Ni	Mo	N
S31803(SAF2205)	0.03	2	1	0.02	0.03	21.0/23.0	4.50/6.50	2.50/3.50	0.08/0.20
00Cr22Ni5Mo3N									

#### PHYSICAL PROPERTIES

Material	$\sigma_b$ (Mpa)≥	$\sigma_s$ (Mpa)≥	$\delta$ (%)≥	Hardness (stiffness)	
				(HB)	(HRC)
S31803(SAF2205)	620	450	25	290	30.5
00Cr22Ni5Mo3N
