

Modern Security Fencing Stainless Steel Barbed Wire Age Resistance

Our Product Introduction

for more products please visit us on wire-metalmesh.com

Basic Information

- Place of Origin: CHINA
- Brand Name: YUDA
- Model Number: Barbed wire
- Minimum Order Quantity: 10 roll
- Price: Determined by size and quantity
- Packaging Details: Customized according to buyer's requirements
- Delivery Time: 3-10 day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 roll/ day

Product Specification

- Product Name: Barbed Wire
- Key Words: Barbed Iron Wire
- Surface Treatment: Galvanized,PVC Coated
- Razor Type: Cross Razor,Single Razor,barbed Wire
- Sample: Free
- Barb Distance: 7.5cm-15cm
- Barb Length: 1.5cm-3cm
- Coil Diameter: 450mm-900mm
- Highlight: **Stainless Steel Barbed Wire,
Modern Security Fencing Barbed Wire,
Age Resistance Barbed Wire**

Product Description

Razor Wire Barbed Concertina Razor Barbed Wire Security Fencing

Razor Blade Wire, it is a kind of modern security fencing materials with better protection and fencing strength made of hot-dipped galvanized steel sheets or stainless steel sheets. With beautiful and sharp blades and strong core wire, razor wire has the features of secure fencing, easy installation, age resistance and other properties.

Blade gill net is a barrier equipment composed of hot-dip galvanized steel sheet or stainless steel sheet punched out of sharp blade sheet, high tension galvanized steel wire or stainless steel wire as core wire. Because the gill net shape is unique and difficult to touch, it can achieve excellent protection and isolation effect. The main material of the product is galvanized sheet and stainless steel plate.

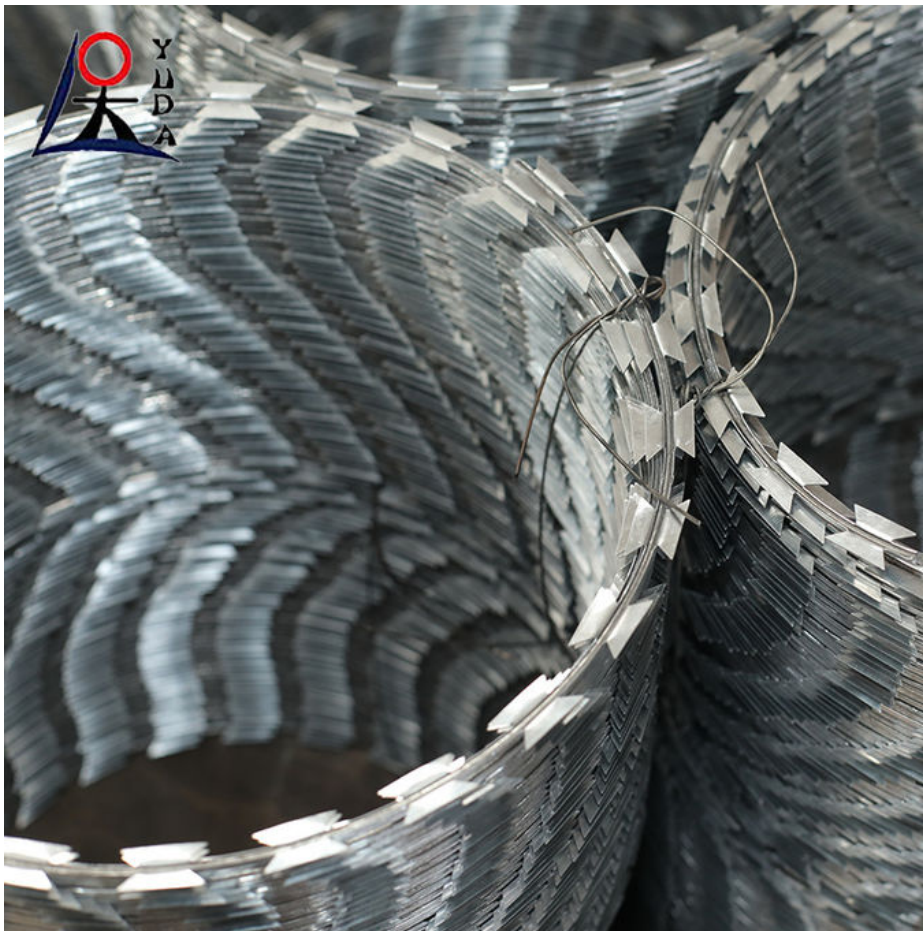

The main use of Barbed wire mesh is as a security protection device. It is widely used in areas such as borders, fences, zoos, and agricultural farms to prevent illegal intrusion of personnel and animals, playing an important role in safety protection.

Due to its unique appearance and structure, Barbed wire mesh is also widely used in landscape decoration. In parks, courtyards, and on both sides of roads, it can be used as decorative materials for railings, flower beds, and green spaces, adding a unique metallic texture to the urban landscape.

Barbed wire is mainly used in protecting of boundary, railway, highway, nation defense, airport, orchard etc. It has an excellent protective performance, beautiful appearance.

Outside Diameter	No. of Loops	Standard Length per Coil	Type	Notes
