Product Description

Low Carbon Steel 1inch 3inch Wire Nails Common Nail Factory

It is widely used in Building construction, decoration field, bicycle parts, wooden furniture, electrical component, household and so on.

One end of the iron nail has a flat head, making it easy to strike with a hammer or other tool, while the other end is sharp, making it easy to nail objects in. Its stem is generally cylindrical, with some also having other shapes such as square

COMPLETE IN SPECIFICATIONS

A variety of specifications can be selected, and the application range is wide.

SHARP NAIL

Nail head sharp, more easy to nail into,save time and labor.

STANDARD HEAD

Standard head, large stress surface, more easy to nail in.

STRONG PENETRATING POWER

The products are made of high carbon steel with high hardness, strong toughness, corrosion resistance and difficult oxidation.
