

## Round Head Smooth Common Wire Steel Iron Nail

Our Product Introduction

for more products please visit us on [wire-metalmesh.com](http://wire-metalmesh.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: YUDA
- Model Number: Nails
- Minimum Order Quantity: 2 Ton
- Price: Reconsideration
- Packaging Details: Customized according to buyer's requirements
- Delivery Time: 3-10 day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Ton/ day

### Product Specification

- Product Name: Concrete Nails
- Key Words: Concrete Screws Nails
- Surface Treatment: Galvanized Or Stainless Steel
- Usage: Building Construction
- Sample: Free Sample
- Place Of Origin: Tianjin Port
- Highlight: **Wire Steel Iron Nail, Round Head Steel Iron Nail, Smooth Common Steel Iron Nail**

## Product Description

### Round Head Smooth Common Nail Wire Steel Iron Nail

A steel nail is a slender fastener made of metal (usually steel), with a conical or flat head and a sharp tail. Mainly used in the fields of construction, furniture manufacturing, metal processing, etc., it connects or fixes materials such as wood, metal, concrete, etc. through tapping or mechanical fixation.

#### Common types

Ordinary steel nails: made of carbon steel material, economical and suitable for fixing general wooden structures.

Stainless steel nails: Strong corrosion resistance, suitable for humid or outdoor environments (such as ships, gardens).

Cement nail: with threads on the surface, used for fixing concrete or brick walls, and needs to be used in conjunction with an impact drill.

Self tapping steel nail: with a threaded tip, it can be directly screwed into wood or metal without the need for pre drilling.

#### Material characteristics

Carbon steel: high strength, low cost, but prone to rusting, requiring surface galvanizing or anti rust coating.

Stainless steel: containing chromium element, excellent corrosion resistance, suitable for high humidity or chemical environments.

Alloy steel: with higher hardness, suitable for high-strength load-bearing scenarios (such as steel structure connections).

#### FAQ

Q: Can we print our own logo ?

A: Yes, we can make it according to your request.

Supplier Competitive Price Steel Galvanized Galvan Concrete Nail

Q: How long is your delivery time?

A: Generally it is 5-10 days if the goods are in stock. or it is 15-20 days if the goods are not in stock, it is according to quantity.

Supplier Competitive Price Steel Galvanized Galvan Concrete Nail

Q: What is your payment term?

A: Generally, 30% T/T in advance ,balance before shipment or against B/L copy.

Please feel free to contact us for detailed information:
