

Customized Diameter Stainless Steel Wire Rope Mesh Slope Protection Soft Flexible

Our Product Introduction

for more products please visit us on wire-metalmesh.com

Basic Information

- Place of Origin: CHINA
- Brand Name: YUDA
- Model Number: Stainless Steel Wire Rope Net
- Minimum Order Quantity: 10 roll
- Price: Determined by size and quantity
- Packaging Details: Customized according to buyer's requirements
- Delivery Time: 3-10 day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 rolls/ day

Product Specification

- Product Name: Stainless Steel Wire Rope Net
- Key Words: Stainless Steel Wire Rope Net
- Material: SUS302,304,316,304L,316L Etc.
- Wire Diameter: Customized According To Customer Requirements
- Type: Weave Wire Mesh
- Usage: Protecting Mesh, Architectural MESH,Fence Mesh,Zoo, Farm, Greenhouse
- Processing Service: Welding, Decoiling
- Length: Customers' Requirement
- Highlight: **Slope Protection wire rope mesh,
Customized stainless steel rope mesh,
Flexible stainless steel rope mesh**

Product Description

Stainless Steel Wire Soft Flexible Security Rope Mesh Slope Protection

Stainless steel wire rope nets mainly include 304, 304L, 316, 316L, etc. Among them, 304 stainless steel has good corrosion resistance and oxidation resistance, and can be used for a long time in general environments; 304L is a low-carbon 304 stainless steel with better resistance to intergranular corrosion; 316 stainless steel has better corrosion resistance due to the addition of molybdenum element, especially with stronger corrosion resistance to seawater, saltwater, etc; 316L is a low-carbon 316 stainless steel, which further enhances its resistance to intergranular corrosion.

It has the characteristics of high strength and light weight. Its tensile strength is usually $\geq 520\text{MPa}$, which can withstand large tensile and impact forces. At the same time, its own weight is relatively light, making it easy to transport and install. In addition, it also has the advantages of good flexibility, fatigue resistance, and high breaking force, which can adapt to various complex terrains and usage environments, and is not easily broken due to long-term use or external forces.

The mesh surface is flat, the mesh holes are uniform, it has high transparency, does not obstruct the line of sight, can integrate with the surrounding environment, and play a role in beautifying the environment. It can be used in fields such as architectural decoration and garden landscape to enhance the overall beauty.

Light weight, good flexibility, simple and convenient installation process, no need for complex tools and equipment, can greatly shorten installation time and cost, and can be cut and spliced on site according to actual needs to adapt to different size and shape requirements.

model	Steel wire mesh structure	Breaking force (KN)	Wire rope diameter (mm)	Mesh size (mm)
BN32120	7*19	7.38	3.2	120*208
BN2470	7*7	4.18	2.4	70*102
BN20100	7*7	3.17	2.0	100*173
BN1680	7*7	2.17	1.6	80*140
