

## 304 Stainless Steel Slope Protection Net Rope For Flexible Durable Metal Protection

### Our Product Introduction

#### Basic Information

- Place of Origin: CHINA
- Brand Name: YUDA
- Model Number: Stainless Steel Wire Rope Net
- Minimum Order Quantity: 10 roll
- Price: Determined by size and quantity
- Packaging Details: Customized according to buyer's requirements
- Delivery Time: 3-10 day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 rolls/ day

#### Product Specification

- Product Name: Stainless Steel Wire Rope Net
- Key Words: Stainless Steel Wire Rope Net
- Material: SUS302,304,316,304L,316L Etc.
- Wire Diameter: Customized According To Customer Requirements
- Type: Weave Wire Mesh
- Usage: Protecting Mesh, Architectural MESH,Fence Mesh,Zoo, Farm, Greenhouse
- Processing Service: Welding, Decoiling
- Length: Customers' Requirement
- Highlight: **Metal Slope Protection Net Rope, Durable Slope Protection Net Rope, 304 Stainless Slope Protection Net**

## Product Description

### Flexible Stainless Steel Slope Protection Metal Protection Net Rope

The stainless steel wire rope net is woven from high-quality stainless steel wire, with a sturdy overall structure that can withstand large external forces, is not easily deformed or damaged, and has a long service life, generally up to 30 years or more.

It has good protective performance and can effectively prevent personnel and objects from falling or falling, ensuring personal and property safety. At the same time, stainless steel material is non-toxic and harmless, will not cause pollution to the environment, and meets environmental protection requirements.

The mesh surface is flat, the mesh holes are uniform, it has high transparency, does not obstruct the line of sight, can integrate with the surrounding environment, and play a role in beautifying the environment. It can be used in fields such as architectural decoration and garden landscape to enhance the overall beauty.

It can be used for building facades, partitions, ceilings, sunshades, balconies and corridors, column decorations, etc. It can add a modern and artistic atmosphere to buildings, while also having certain protective functions.

As a high-altitude anti falling object net, bridge fence, staircase handrail, etc., it can effectively prevent the occurrence of high-altitude falling object accidents, protect the safety of personnel and vehicles, and is widely used in high-risk areas such as old buildings and construction sites.

model	Steel wire mesh structure	Breaking force (KN)	Wire rope diameter (mm)	Mesh size (mm)
BN32120	7*19	7.38	3.2	120*208
BN2470	7*7	4.18	2.4	70*102
BN20100	7*7	3.17	2.0	100*173
BN1680	7*7	2.17	1.6	80*140
