Product Description

Stainless Steel Wire Rope Mesh Security Protection Cable Rope Fence

stainless steel wire rope net is woven from high-quality stainless steel wire, with a sturdy overall structure that can withstand large external forces, is not easily deformed or damaged, and has a long service life

Can be used for building facades, partitions, ceilings, sunshades, balconies and corridors, column decorations, etc., adding a modern and artistic atmosphere to buildings, while also having certain protective functions

As a high-altitude anti falling object net, bridge fence, staircase handrail, etc., it can effectively prevent the occurrence of high-altitude falling object accidents, protect the safety of personnel and vehicles, and is widely used in high-risk areas such as old buildings and construction sites.

Stainless steel wire rope net for protective engineering is suitable for animal cages, bird nets, animal fences, garden decoration and construction renovation, etc. It can provide a safe and comfortable living environment for animals without affecting the viewing experience of tourists, and can also coordinate with natural landscapes.

It can be used for safety protection and decoration in sports venues, amusement parks, acrobatic performances, and other places, such as fences for sports venues and protective nets for amusement facilities, which can ensure the safety of users and create a good visual effect.
