

## Slope Protection Steel Wire Net Stainless Steel Ferrule Wire Rope Mesh

### Our Product Introduction

#### Basic Information

- Place of Origin: CHINA
- Brand Name: YUDA
- Model Number: Stainless Steel Wire Rope Net
- Minimum Order Quantity: 10 roll
- Price: Determined by size and quantity
- Packaging Details: Customized according to buyer's requirements
- Delivery Time: 3-10 day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 rolls/ day

#### Product Specification

- Product Name: Stainless Steel Wire Rope Net
- Key Words: Stainless Steel Wire Rope Net
- Material: SUS302,304,316,304L,316L Etc.
- Wire Diameter: Customized According To Customer Requirements
- Type: Weave Wire Mesh
- Usage: Protecting Mesh, Architectural MESH,Fence Mesh,Zoo, Farm, Greenhouse
- Processing Service: Welding, Decoiling
- Length: Customers' Requirement
- Highlight: **Stainless Steel Ferrule Rope Mesh, Slope Protection Steel Wire Net**

## Product Description

### Slope Protection Steel Wire Net Stainless Steel Ferrule Wire Rope Mesh

Stainless steel wire rope mesh integrates corrosion resistance, high strength, flexibility, aesthetics, safety, and environmental protection. It can meet the needs of industrial protection and adapt to decorative scenes, making it an efficient and cost-effective alternative to traditional metal mesh.

Whether it is closed mouth weaving (anti fall, anti penetration) or open buckle weaving (flexible protection), the mesh is uniform and the structure is stable, which can effectively intercept objects (such as high-altitude falling objects, animal collisions), while avoiding secondary injuries caused by rigid collisions. For example, zoos use it as an animal enclosure, which can prevent animals from escaping and buffer the impact force of animals, protecting the safety of animals and visitors.

Stainless steel material itself is non-toxic and harmless, does not release harmful substances, and can be recycled and reused after disposal, meeting environmental protection requirements, especially suitable for environmentally sensitive fields such as food processing workshop protection and ecological zoos. Compared to ordinary metal mesh that is prone to rust and requires frequent replacement, its "long life+recyclability" characteristics are more in line with the concept of sustainable development.

model	Steel wire mesh structure	Breaking force (KN)	Wire rope diameter (mm)	Mesh size (mm)
BN32120	7*19	7.38	3.2	120*208
BN2470	7*7	4.18	2.4	70*102
BN20100	7*7	3.17	2.0	100*173
BN1680	7*7	2.17	1.6	80*140
