

Pp Plastic Netting Hdpe Extruded Aquaculture Net Plastic Flat Wire Mesh

Our Product Introduction

for more products please visit us on wire-metalmesh.com

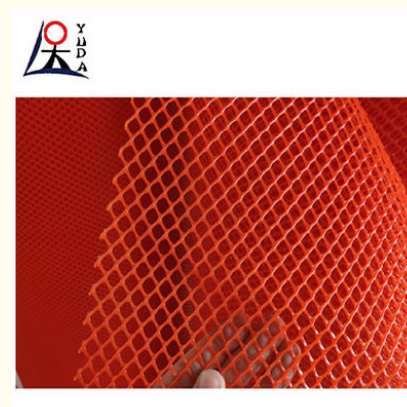

Basic Information

- Place of Origin: CHINA
- Brand Name: YUDA
- Model Number: Plastic flat net
- Minimum Order Quantity: 100 Square Meter
- Price: Further discussion based on quantity
- Packaging Details: Customized according to buyer's requirements
- Delivery Time: 3-10 day
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 200000 Square Meters/ day

Product Specification

- Product Name: Plastic Net
- Keys Words: 400g White Black Pe Plastic Net Chicken Net Garden Net Mesh
- Color: Black, White, Green, Orange, Red Or Customized
- Material: HDPE
- Hole Shape: Diamon, Square, Hexagonal Etc.
- Usage: Multi-purpose
- Processing Servic: Cut, Edge Sealing
- Length: Customization
- Highlight: **HDPE plastic aquaculture net, PP extruded flat wire mesh, plastic netting for aquaculture**

Product Description

Pp Plastic Netting Hdpe Extruded Aquaculture Net Plastic Flat Wire Mesh

Plastic mesh also known as plastic flat screen and plastic breeding netting. It is made of high density polyethylene, polypropylene as raw material and added with other additives. It has the advantages of corrosion resistance, light weight, long service life, no poison and no taste.

Produced using native plastic pellets, without the precipitation of harmful substances such as heavy metals. In the breeding scene, occasional pecking by poultry does not pose a threat to health, which is crucial for the current emphasis on food safety. Both for the environment and users, it is very friendly, unlike some inferior nets that can cause serious environmental pollution if discarded after use.

Characteristics:

Wear resistant, corrosion-resistant, and highly resilient, it can replace metal wire mesh.

Lightweight, long-lasting, non-toxic and odorless, with good transparency.

Diverse specifications: aperture 0.2-6 centimeters, plate thickness 1-4.5 millimeters, mesh width 50-300 centimeters, unit weight 50-1200 grams per square meter.

Purpose:

Aquaculture (such as fish and shrimp farming nets), poultry farming (such as chicken and duck bottom nets), civil engineering and construction (roadbed reinforcement, river slope protection).

Industrial fields: air conditioning filters, flame retardant nets, car seat frames, Simmons mattress lining nets, etc.

Agricultural protection: bird proof nets, windproof nets, vegetation climbing nets, etc.

Advantages:

Low cost, long service life, easy installation, and low labor intensity.

FAQ

Q : What is the term of payment ?

A : As general , 30% T/T down payment and balance before shipping.

Q : What is delivery time ?

A : It depends on the order quantity .

As general , within 10 days.

Q : Which port will be used as loading port ?

A : Shanghai port.

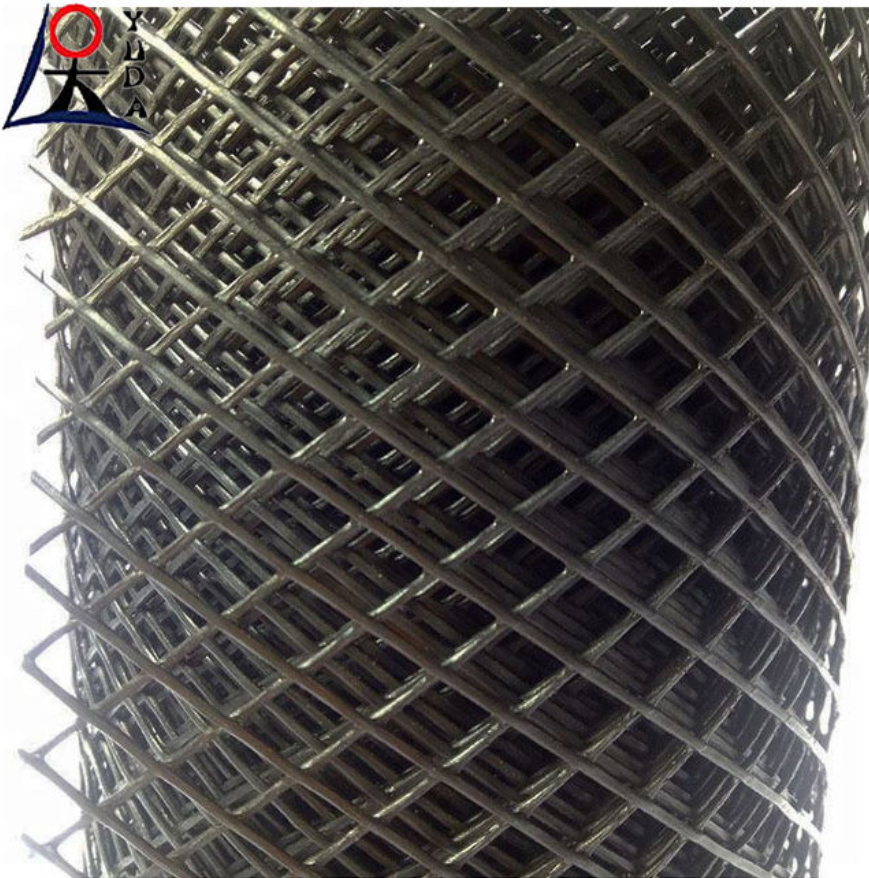

Q : May I know the status of my order ?

A : Yes . We will send you information and photos at different production stage of your order .You can also get the latest information on our contract tracking system.

Q: Could you provide free samples ?

A: For new customer , We can provide free samples , But the clients will pay the express charges . For old customer , We will send you free samples and pay to express charges by ourself.
